The determination of an appropriate plan of medical and/or chiropractic management for medical, orthopedic or chiropractic conditions may involve or include the utilization of physical examinations, muscle testing, physiotherapeutic exercise or rehabilitation procedures done in office or at home utilizing devices appropriate for same, spinal adjustments, diagnostic imaging including but not limited to x-rays, ultrasound or MRI, electrical stimulation or TENS unit application or ultrasound applied to muscles, nerve conductive velocity testing, acupuncture, venipuncture, injections into large or small joints or muscles, or prescriptions. Should these procedures be deemed appropriate in your case, you will be examined by a doctor or his or her mid-level provider ("Provider") to determine if you have any conditions that indicate you should not engage in any of the foregoing.

If you are receiving an injection involving Hyaluronate, you need to inform your provider if you have an allergy to chicken, eggs, feathers, or vaccine products derived therefrom. The Patient is at all times free to engage in alternatives to procedures which include not receiving or refusing the procedure, or other appropriate medical or surgical management. Patient always has the right to refuse any procedure at any time. It is Patient's responsibility to inform Provider if Patient does not want the procedure or wishes to stop the procedure after it has started. It is Patient's responsibility to inform Provider of any prior adverse outcome or reaction to a similar treatment previously, or if such a reaction occurs during or after a procedure in this office. Patient understands that the doctor may not be able to anticipate and explain all potential risks and complications, and wishes to rely on the doctor to exercise his or her clinical expertise and best judgment based on the facts then known to him or her to determine a reasonable course of action which the doctor feels at the time – based upon the facts then known to him or her – is in Patient's best interests. Patient has had an opportunity to ask questions about its content, and by signing below, Patient indicates Patient's understanding that results are not guaranteed and that Patient has had the opportunity to discuss the purposes, procedures, risks and other factors and ask all questions Patient has about his treatment in the office. Patient also agrees to hold this office and its staff harmless for injuries caused by the use of durable medical equipment due to improper use or manufacture defects. Patient intends this consent form to cover the entire course of treatment for Patient's present condition and for any future condition(s) for which Patient seeks treatment at this office. Patient has read and understands the preceding statements and hereby consents to voluntarily participate in one or more of the above-described treatments, and/or other medical management procedures as deemed appropriate by Provider. If at any time I decide that I am unwilling to engage in these procedures, I reserve the right to inform my doctor of such and not participate in these forms of evaluation or treatment.
